Research Papers

A new chemical analyzer for in situ measurement of nitrate and total sulfide over hydrothermal vent biological communities
N. Le Bris, P.-M. Sarradin, D. Birot and A.-M. Alayse-Danet 1

Solid phase associations, oceanic fluxes and the anthropogenic perturbation of transition metals in world river particulates
S.W. Poulton and R. Raiswell 17

Seasonal CO_2 fluxes in the tropical and subtropical Indian Ocean
C.L. Sabine, R. Wanninkhof, R.M. Key, C. Goyet and F.J. Millero 33

Effects of decarbonation treatments on $\delta^{13}C$ values in marine sediments
C.J. Schubert and B. Nielsen 55

The interaction of amino acids with the major constituents of natural waters at different ionic strengths
C. De Stefano, C. Foti, A. Gianguzza and S. Sammartano 61

Corrigendum

Corrigendum to "A geochemical record of eutrophication and anoxia in Chesapeake Bay sediments: anthropogenic influence on organic matter composition" [Marine Chemistry 69 (2000) 117–137]
A.R. Zimmerman and E.A. Canuel 77

Preface

Second international symposium on carbon dioxide in the oceans, Tsukuba, Japan 79

Experiments on the ocean sequestration of fossil fuel CO_2: pH measurements and hydrate formation
P.G. Brewer, E.T. Peltzer, G. Friederich, I. Aya and K. Yamane 83

A field study of the effects of CO_2 ocean disposal on mobile deep-sea animals
M.N. Tamburri, E.T. Peltzer, G.E. Friederich, I. Aya, K. Yamane and P.G. Brewer 95

Interannual variations of the Antarctic Ocean CO_2 uptake from 1986 to 1994
F. Louanchi and M. Hoppema 103

Difference in O_2 and CO_2 gas transfer velocities in Funka Bay
N. Nakayama, S. Watanabe and S. Tsunogai 115

Stable carbon isotope distribution of particulate organic matter in the ocean: a model study
M. Hofmann, D.A. Wolf-Gladrow, T. Takahashi, S.C. Sutherland, K.D. Six and E. Maier-Reimer 131

The role of the annual cycles for the air–sea exchange of CO_2
G. Broström 151

The international at-sea intercomparison of fCO_2 systems during the R/V Meteor Cruise 36/1 in the North Atlantic Ocean
A. Körtzinger, L. Mintrop, D.W.R. Wallace, K.M. Johnson, C. Neill, B. Tilbrook, P. Towler, H.Y. Inoue, M. Ishii, G. Shaffer, R.F. Torres Saavedra, E. Ohtaki, E. Yamashita, A. Poisson, C. Brunet, B. Schauer, C. Goyet and G. Eischeid 171

Apparatus for continuous-flow underway spectrophotometric measurement of surface water pH
M. Tapp, K. Hunter, K. Currie and B. Mackaskill 193
CO_2 in the Weddell Gyre and Antarctic Circumpolar Current: austral autumn and early winter
M. Hoppema, M.H.C. Stoll and H.J.W. de Baar 203
Simulations of storage of anthropogenic carbon dioxide in the North Pacific using an ocean general circulation model
Y. Xu, Y.W. Watanabe, S. Aoki and K. Harada 221
Intercomparison of shipboard and moored CARIOCA buoy seawater fCO_2 measurements in the Sargasso Sea
N.R. Bates, L. Merlivat, L. Beaumont and A.C. Pequignet 239
Distribution of the fugacity of carbon dioxide in the surface seawater of the Great Barrier Reef
H. Kawahata, A. Suzuki, T. Ayukai and K. Goto 257
Doubled CO_2 impact on subarctic marine carbon cycle: a case study at Ocean Station P
K. Higuchi, Y.-H. Chan, C.W. Yuen and C.S. Wong 273
Increase in the uptake rate of oceanic anthropogenic carbon in the North Pacific determined by CFC ages
Y.W. Watanabe, T. Ono and A. Shimamoto 297
Recent increase of DIC in the western North Pacific
T. Ono, Y.W. Watanabe and S. Watanabe 317
REEs and Mn/Al ratio of settling particles: horizontal transport of particulate material in the northern Japan Trench
S. Otosaka and S. Noriki 329
Reconstruction of subsurface DIC and alkalinity fields in the North Pacific using assimilation of upper ocean data
M. Ikeda and Y. Sasai 343
